

## Release Notes

February 22, 2023

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 2/22/2023.

**[Business Enhancement]** Ability to view custom form history on the Custom Forms edit page

**[Business Enhancement]** Separate the Same Day Auth Requested from PAs that still require action on the main dashboard

**[Business Enhancement]** Implement Topaz signature pad

**[Business Enhancement]** On the User Show page, show the Identity Provider a user is assigned to for Single Sign On

**[Business Enhancement]** On the Analytics Scheduler modal, update the report name "EPR by VeriPro Payer" to "EPR by VeriPro Payor" to match the table's name

**[Business Enhancement]** Change "Charges" to "Bill Charge" on the Patient Product Agreement and Rx document

**[Business Enhancement]** Allow a user with PA Creator role to Archive a PA

**[Business Enhancement]** Ability to Mass Upload Vendor Purchase Attributes to update VPA without having to change Unit Price

**[Future Enhancement]** Add a pill to an inventory item on the suggested restock page alerting me the item has a Replacement Item selected

**[Operational Enhancement]** Allow MotionMD to use a new endpoint for consignReplenish

**[Chore]** Migrate SSO users from one IdP to another

**[Chore]** Remove unused do\_not\_send\_drop\_ship\_order virtual attribute

**[Bug Fix]** Adding more than one of a SKU to a PA causes dropdowns on first product(s) to have old UI and Involved Side selection not function properly

**[Bug Fix]** The archive reason doesn't show on PA when archived from Patient Agreements tab of PANFUBS

**[Bug Fix]** Users are not receiving an email alert that their password is about to expire

**[Bug Fix]** Custom Fit Warning appearing on PA's that do not meet requirements for the Early Warning
