

## Release Notes

January 20, 2021

---

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 01.20.21.

**[Business Enhancement]** Add a filter to the Products page called 'Has Stock Records' so products can be filtered to those with at least one stock record underneath

**[Business Enhancement]** Move the 'Existing PA' alert on the new PA page so the Create PA button is not pushed down the page

**[Business Enhancement]** Update the Patient Signature alerts to match other sections on the PA page

**[Business Enhancement]** Update the ABN to prevent selecting multiple reasons Medicare does not pay

**[Business Enhancement]** Update the Billing Modifiers section on the BS tab to a modal form rather than inline form

**[Operational Enhancement]** Update the Global Products list in System Maintenance to be in alphabetical order

**[Operational Enhancement]** Mandate the Inventory Location's Delivery Address Phone Number so it populates on the ABN

**[Operational Enhancement]** Add SSO/Identity Provider details to the user page so it's clear a user is utilizing SSO to login

**[Operational Enhancement]** Add a pill labeled 'SSO' next to Users that have an Identity Provider for SSO enabled

**[Operational Enhancement]** Update the Incomplete PA counts on the main dashboard to be limited to 90 days to dashboards load faster

**[Operational Enhancement]** Remove the dependency that users need to have a Current Clinic Location set in order to create a Restock

**[Future Functionality]** Add a new Biller flag so accounts can convert HCPCS to CST equivalent

**[Future Functionality]** Update the HCPCS table with Custom Fit equivalents

**[Bug Fix]** On PA and BS tabs, after Archiving a PA, the PA count at the top of the page does not update until page refresh

**[Bug Fix]** The 'General' tab on the User edit page is always active

**[Bug Fix]** The Download Receipt button is misaligned after making or recording a payment

**[Bug Fix]** Archiving a PA causes the Archive wording to overlap

**[Bug Fix]** After resetting password from the login page user status is still showing 'password expiring'

**[Bug Fix]** User roles are able to be selected outside of the checkboxes on the user edit page

**[Bug Fix]** The time format on the PA is not displaying in correct format on both status bars
