

## Release Notes

November 6, 2023

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 11/06/2023.

**[Business Enhancement]** Update the PA and Rx PDF to enlarge the display of the Patient Signature and increase the font size of the Patient Acknowledgment wording.

**[Business Enhancement]** Add a new For Follow Up reason called 'Needs CMN.'

**[Business Enhancement]** Add a new filter, under All Additional Filters, titled 'Signed by Provider.'

**[Analytics]** On the Current Inventory Valuation by Location report, breakdown the 'Other' locations shown on the graph so accounts with more than 10 Inventory Locations can see the breakdown of the locations comprising the 'Other' category.

**[Reports]** On the Stock On Hand Adjustment History report, record when a stock record is created or deleted for full history

**[Reports]** On the Stock Par Level Adjustment History report, record when a stock record is deleted.

**[Operational Enhancement]** Error PAs with status of Unknown should show as Document Generation Failed error reason.

**[Bug Fix]** Search box is missing from the Clinic search on Missing Provider Signature Clinic dropdown if there are more than 10 clinics.

**[Bug Fix]** Rental products aren't populating Order Date immediately.

**[Bug Fix]** Restock Notes are labeled 'restock\_notes' in Recent Activity tracks.

**[Bug Fix]** On the Inventory Shrink report, the variance is incorrectly showing 0 if a Count Qty is 0 and Previous Onhand Qty is 0.

**[Bug Fix]** Address 500 error that appears when signing PAs for a clinic with multiple inventory locations and the product is Out of Stock.

**[Chore]** Update Rails.application.reloader.to\_prepare calls.

**[Chore]** Fix 'account\_group\_sales\_price\_spec.rb.'

**[Chore]** Fix two intermittent test failures in the PaStatusReport Spec.

**[Chore]** Duplicate IDs – WCAG 4.1.1 Parsing.

**[Chore]** Upgrade CI build to MySQL 8.

**[Chore]** Add unit testing of JS controllers with Jest.

**[Chore]** Add .editorconfig file to project.

**[Chore]** Remove RspecPolyfill.

**[Chore]** Remove remaining account.current\_id references from models and API.
