Release Notes   August 12, 2024

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 8/12/24.

[Business Enhancement] Move Ready for Billing and Errors filters on Home Dashboard to the top of the page

[Business Enhancement] Add URL param that sets the current account

[Business Enhancement] Add Provider Signature Date and Self Pay/TOS columns to the PA Status Report

[Business Enhancement] Update the Medicare Pre-Auth Early Warning to add and remove HCPCS that trigger the warning

[PA 2.0] Upload PDF button in Mobile Companion App should send the upload to MotionMD

[NPI Database Integration] Store new table titled 'Medical Professional Taxonomies'

[Bug Fix] On Billing Doc PDF "Order Date/Prescription Date" is duplicated on the first page

[Bug Fix] PA 2.0 – If Encounter ID is required to Submit to Billing and is the last requirement completed, I shouldn't have to reload page to view the Submit to Billing button

[Bug Fix] If On Hand Count is negative, user should not be able to add item to transfer

[Bug Fix] PA 2.0 – Expiration Year is wrapping on payment modal

[Bug Fix] PA 2.0 – Resolve "must reload the page" issues on PA 2.0: Removing Payment method and MiQ

[Bug Fix] Duplicate Medicare Warning is not looking at HCPCS code

[Spike] Research upgrading to Ruby 3.3
