# Release Notes                                            November 18, 2024

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 11/18/24.

**[RCM]** When user dispenses a product to a Medicare patient on product(s) on a PA that trigger the Medicare Pre-Authorization Early Warning, do not automatically convert to fulfill from Drop Ship and billing channel Specialty Bracing so they can be routed appropriately

**[PA 2.0]** Add Topaz Signature pad functionality to PA 2.0

**[VeriPro 2.0]** Add functionality to Edit Coverages button on VeriPro2 Dashboard and add Static Form Design for Edit Coverages modal

**[VeriPro 2.0]** On VeriPro2 dashboard, fill in data for Estimate Details and Patient Estimate

**[Custom Follow Up]** Display Custom For Follow Up Reasons on For Follow Up Dropdown + misc

**[Chore]** Remove the commercial_billing role since it no longer gives the user additional permissions

**[Chore]** Squash old migrations and fix schema.rb

**[Chore]** Modify data:update_same_category_billed task to run successfully in prod & rerun it

**[Bug Fix]** On PA 1.0 if a Provider is added from the PA Page Signature section then the Medical Information is Edited/Saved the provider gets wiped

**[Bug Fix]** Blank PA PDF spacing is off
