# Release Notes   August 21, 2019
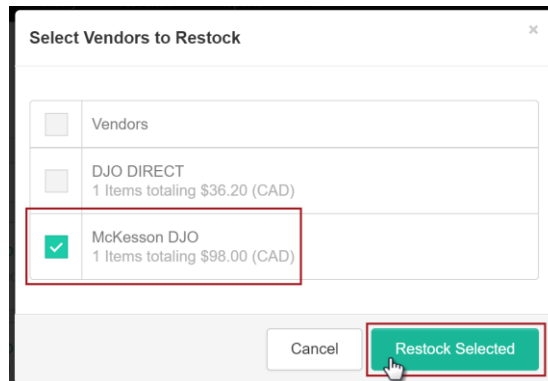

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 8.21.19.

[VeriPro] Show a warning message on the Product page if the HCPCS is changed

[Business Enhancement] Move the Verbal Prescription checkbox from the top of the PA to the Signature section

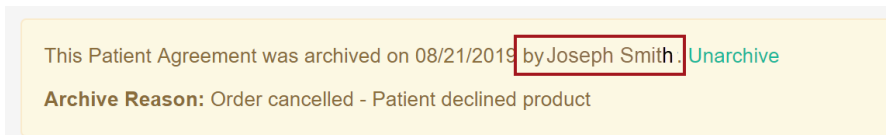

[Business Enhancement] Allow users to select Vendors before creating a Restock to improve the ordering process

[Business Enhancement] Update the UI to say 'Provider' everywhere it says physician or doctor to be more inclusive

[Business Enhancement] Add the Archived by user to the archive banner on the PA page

[Operations Enhancement] Update OfficeCare Drop Ship wording to be more clear – Billing Requirements need to be met to create drop ship order

[Operations Enhancement] Allow the 'Claim Package PDF' attachment type to be used with Attach Script option

[Operations Enhancement] Update the Accounts page in System Maintenance to be more clear

[Operations Enhancement] Allow the ability to add the same HCPCS three times on a Product

[Operations Enhancement] Allow search by email on users in System Maintenance

[Reporting] Add Unit Price to the Outstanding Restocks report

[Future Functionality] Allow users to create usage to better monitor inventory

[Future Functionality] Allow users the ability to see historical inventory usage

[Future Functionality] Create inventory usage export to track inventory used

[Future Functionality] Add a table to add patient pathways

[SSO] Add SSO button on login page so users can login with SSO

[Bug Fix] Change required MCA app version to be 1.2 instead of 1.3

[Bug Fix] Ineligible Products message is overlapping Receipt Options header in payment section

[Bug Fix] Audit Reconciliation date picker is not responding to clicks

[Bug Fix] Breadcrumb on Restock All Activity tracks page isn't styled

[Bug Fix] The Specialty Bracing submission error message is not in the header

[Bug Fix] OC PAs in Ready for Billing and Received status have nil submission data

[Tech Debt] Create our own docker image for CIrcleCI

[Tech Debt] As a developer I want to enqueue fewer messages to the sqs_publish_message_queue so that we don't clog resque

[Chore] Update gemfile.lock
