

## Release Notes

October 30, 2019

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 10.30.19.

**[Business Enhancement]** Update the Inventory Locations page layout to be more user friendly and allow for additional actions

The screenshot shows the MOTIONMD Inventory Locations page. At the top, there is a navigation bar with links for Clinical, Inventory, Revenue, Reports, and Admin. Below the navigation bar, the page title is "Inventory Locations" with a subtitle "3 Total Inventory Locations". A dropdown menu shows "All Inventory Locations". The main content area displays three location cards. Each card shows the location name, address, phone number, and a button to restock items. The Carlsbad location has 3 incomplete restocks, Vista has 22, and Escondido has 0. The Escondido location is marked as inactive.

**[Business Enhancement]** Reports dropdown menu has been updated with headers for Administrative and Inventory reports and the report lists under each header have been alphabetized for ease of use

The screenshot shows the MOTIONMD Reports dropdown menu. The menu is open, showing a list of reports categorized under "ADMINISTRATIVE" and "INVENTORY". The reports are alphabetized within each category.
