

## Release Notes

December 18, 2019

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 12.18.19.

**[Marketing Enhancement]** Update login page to be consistent across applications

**[Business Enhancement]** Allow the Day and Year selections to show full text so users know what dates they are selecting for date of birth, date of injury and date of surgery

**[Business Enhancement]** For any non-DJO OfficeCare account add a Select All button to the Billing Summary page so all PAs on that page can be selected and submitted at once

**[Business Enhancement]** Update some report names to be more clear

- Inventory Activity is now Product Activity (PA)
- Inventory Usage is now Product Usage (Batch)
- Inventory Report is now Stock Record Report
- Inventory Transfer History is now Transfer History
- Inventory Adjustment is now Adjustment History
- User Report is now User List

**[Business Enhancement]** Update sub headers on the Clinic page to tally number of Clinics being viewed

**[Business Enhancement]** Missing DOI link on the dashboard will only filter to Work Comp & Auto after navigation to the PA tab

**[Business Enhancement]** After emailing Patient Receipt document allow users to update email address when resending if it needs to be sent elsewhere

**[Business Enhancement]** Added an optional Early Warning message for Medicaid payment types alerting the user a Certificate of Medical Necessity (CMN) may be needed for this payment method

**[Operational Enhancement]** Remove the ability for DJO OfficeCare accounts from creating Manual Restocks

**[Operational Enhancement]** Total number of accounts in System should be separate from the total number of the search results

**[Operational Enhancement]** Data export endpoint should include soft deleted records

**[Bug Fix]** Inventory count search icon redirects back to inventory count index page

**[Bug Fix]** Double scrollbar showing inside inventory counts index page

**[Bug Fix]** Unable to search Restocks by ID

**[Bug Fix]** Restock check-in item search is case sensitive

**[Chore]** Upgrade to Ruby 2.5

**[Chore]** Remove Orders

**[Chore]** Fix /spec/controllers/admin/ specs in preparation for Rails 5 upgrade
