

MotionMD® Telehealth

MotionMD automates DME program operations and enhances the clinic's telehealth strategy. MotionMD Telehealth ensures that products are delivered to patients remotely, compliantly and securely while helping to provide a virtual continuum of care.

Telehealth Program Details:

- Powered by our automated MotionMD® solution
- Products ship directly to patients
- Secure, electronic patient signatures
- Virtual patient support
- Eligible DME products are billed by DJO®
- Product coverage criteria applicable
- Educational product fitting videos available

Experience & Expertise:

- More than 2,000 MotionMD accounts nationwide
- Over 35 years of DME experience
- Over a million DME claims billed annually
- Over 1100 EMR/PM Integrations

How It Works:

Contactless, Virtual, Secure

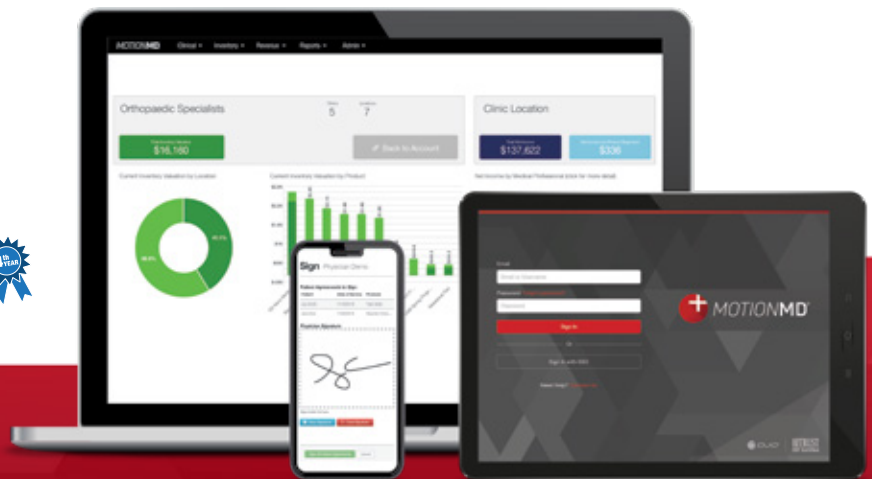

Provider has Telehealth visit with patient

Provider identifies need for DME product

Order is entered in MotionMD

Patient is sent a secure document to sign and consent

Product is shipped directly to patient

DJO Global® is ACHC Accredited and follows all HIPAA and Advanced requirements and guidelines.
