

## Release Notes

June 24, 2020

---

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 6.24.20.

**[Business Enhancement]** The Vendor list dropdown should be in alphabetical order when selecting a Vendor on the items Vendor Purchase Attributes

**[Business Enhancement]** When Users are logged off MotionMD they should have to log back in and not be presented with the previous screen so it doesn't appear they've not been logged out

**[Operational Enhancement]** For embedded analytics, users should know when an error occurs so they don't receive a 500 error screen

**[Operational Enhancement]** Create Track records for Patient Agreements to log specific integration Success or Fail details in DJO Integrator

**[Operational Enhancement]** Increase billing submission timeout so PAs aren't in Pending status if a response takes longer than 10 minutes

**[Future Functionality]** Add BM to DJO Integrator PatientAgreementSerializer within the Patient Agreement Products loop

**[Future Functionality]** Update PDFs to include BM information

**[Bug Fix]** Checkbox within the PA Demographics edit section is no longer auto-checked

**[Bug Fix]** Billing Summary and Incomplete PA reports are not putting product details in the correct order if there are multiple products on the PA

**[Bug Fix]** Fix signature spacing on batch sign for iPad

**[Chore]** Determine how to reproduce Honeybadger error 60420217

**[Chore]** Upgrade to Rails5
