# Release Notes   July 8, 2020

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 7.8.20.

[Business Enhancement] Allow users to search the Patient Agreement, Billing Summary and ICD-10 tabs by full HCPCS codes

[Business Enhancement] Update ABN with new expiration date of 06/30/2023

[Business Enhancement] Add the ability to start a Rental Cycle based on the Date of Surgery set when dispensing the Rental product from a Patient Agreement

[Operational Enhancement] Update the 'Last 4 Months' selection on the Reports pages to end on the date the report is being run

[Operational Enhancement] Reinstate the Inventory Item ID on the Prescription PDF

[Operational Enhancement] User lists in Account page in System Maintenance should only show users linked to that account

[Operational Enhancement] Add the OC Biller Reference number to the auth.net API for improved reporting purposes

[Operational Enhancement] Extend the login period when a user has been Reactivated to 72 hours

[Operational Enhancement] Add the E-ID to the PA cards on the PA, BS and ICD-10 tabs if populated

[Future Functionality] Add HMAC verification to DS webhooks for security

[Bug Fix] Refreshing the PA or opening an existing PA is removing the Patient Visible check on attachments

[Bug Fix] Rental Period days are getting removed after clicking Save on the product form and there is an error to correct

[Bug Fix] Honeybadger error, don't trigger email upon provider signature

[Bug Fix] Selecting Due Soon or Past Due on Rental Product page is throwing a rails error

[Bug Fix] Item Attribute radio buttons are overlapping the wording when editing or creating a new Inventory Item

[Chore] Don't add a newline when getting prompted for credentials as a developer

[Chore] Dependabot: upgrage kaminari and actionview

[Chore] Add clinic locations to Heap

[Chore] Revert chore for DS capitalization consistency

[Chore] Switch DS config for dev/flux/demo to the new MotionMD account
