

DOWNLOAD INVENTORY STOCK RECORDS

The Inventory stock records associated with a MotionMD account may be downloaded by Account (All Inventory locations) or by a specific Inventory Location.

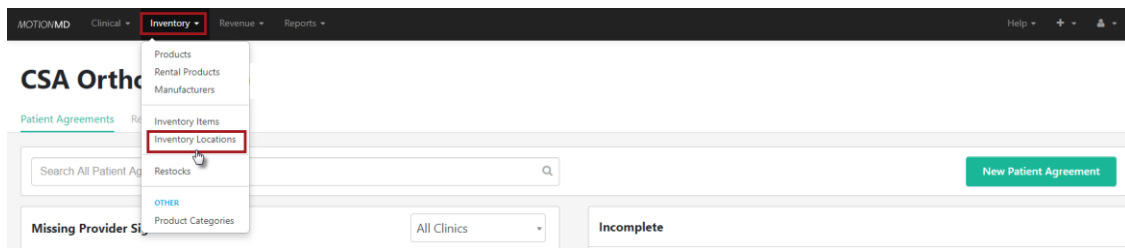

Download Stock by Account:

On the main navigation bar, under Reports select Stock Record Report to download the excel spreadsheet with the stock records for all products at all Inventory locations

Download Stock by Inventory Location:

- On the main navigation bar, under Inventory select Inventory Locations:

- Search and select the desired Inventory Location. Under the Inventory location, select the 3 dots next to the Restock button to locate the Download Stock option. This will download the excel spreadsheet with the stock records for all products related to this location only.
