

Release Notes

January 6, 2021

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 01.06.21.

[Operational Enhancement] Update DJO's Default Patient Acknowledgement script and update it for all OfficeCare accounts

[Future Functionality] Create an Early Warning on the PA letting Users know when a patient and product are in CBA if EW is enabled

[Bug Fix] When processing payments the options at the top of each dropdown menu are missing

[Bug Fix] Users are unable to select or edit providers in account

[Bug Fix] Demographic sections are not able to be edited on certain PAs

[Chore] Add 'require "rails_helper"' to spec/features/admin/patient_agreements/veripro_verification_spec.rb
