

UPDATING BILLING CHANNELS FROM THE BILLING SUBMISSION TAB

To improve the process of changing Billing Channels for Special Billing PAs a feature has been added to the Billing Submission (BS) tab. This will allow Users to update multiple PAs at one time.

From the BS tab, select or check the PAs that need to be updated. Select as many PAs needing to be updated to the SAME Billing Channel. If there are PAs that need to be changed to a second Billing Channel, they will need to be updated separately.
