Release Notes   February 10, 2025

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 2/10/25.

[Enhancement] Add Inventory Location and Rental Product ID to the Rental Status Report

[PA 2.0] BUG – when adding a product to a PA under the In Stock tab with No Stock Records, the product modal pops up

[PA 2.0] BUG – Signature Section heading shows ½ Signatures when Provider Signature has been marked with EMR/Fax Script

[PA 2.0] BUG – Removing a note does not refresh the sidebar

[PA 2.0] BUG – Lock symbol on Submitted PA does not appear until page is refreshed

[PA 2.0] Move "Submit to Billing" button to side bar of PA 2.0

[PA 2.0] BUG – On Create New PA page, when a protocol is available for a selected provider, remove extra comma after the provider's name

[PA 2.0] BUG – Users cannot take a payment if the first product on the PA has a Bill Charge that exceeds the charge amount on PA 2.0

[PA 2.0] BUG – Attachment type drop down is not displayed when using "Multipage Upload" on iPad

[PA 2.0] BUG – When using PA Quick Switch button and switching from PA 2.0 to 1.0 some buttons don't work

[PA 2.0] BUG – Provider's signature stamp should not include date

[PA 2.0] BUG – Help: Able to click Submit Ticket multiple times causing many tickets to be created

[PA 2.0] Allow sidebar to be collapsable

[VeriPro 2.0] Add link to view Availity outages

[VeriPro 2.0] Add an alert on the VeriPro View Coverages page

[VeriPro 2.0] On Edit Coverages modal, make notes section static text and remove red "x"

[VeriPro 2.0] Chore - Hide all sections of View Coverages 2.0 until all sections have loaded

[VeriPro 2.0] Add option on View Coverages 2.0 to download the VeriPro Coverages PDF

[Bug Fix] On the provider page, after I import a provider and create them, the modal doesn't close and I have to reload the page to see them on the index page

[Bug Fix] On the PA 1.0 in the Medical Info section the "X" is not showing on the Select 2 Dropdown unless I have more than 10 providers

[Bug Fix] Providers with long names are causing the first page of the PDF doc to wrap to a second, mostly blank page

[Chore] Patch "verifaux" dummy servers for Ruby 3.3

[Chore] Fix SyntaxError
