Release Notes   August 11, 2025

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 8/11/25.

[Enhancement] On the Inventory Count module, include the "barcode" field in the fields that get searched with the item search

[VeriPro2] If the total or remaining fields are null, do not pull the dash into the left panel field if that row is selected

[VeriPro2] Store Coverages Summary JSON from Availity

[Executive Analytics] Executive Analytics charts showing about:blank in the print preview

[Dark Mode] Dark Mode 1 – CSS Cleanup and Building a Default Theme

[Bug Fix] Fix Record Payment Modal's cancel button

[Bug Fix] When TOS is set to "yes", but the user attempts to add a verification the tooltip is missing

[Bug Fix] On Account Analytics the Provider Classifications on Provider tab are not showing correct data for a classification

[Chore] Create & run migration and Rake task to migrate "Intake" users to "Clinical Support Technician" role

[Chore] Update MotionMD to Bootstrap 5

[Chore] Flaky tests – Aug 2025
