

## Release Notes

June 9, 2021

---

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 06.09.21.

**[Business Enhancement]** Update the Vendor Restock modal to include the total units to show how the Restock dollar amount is calculated to be more clear

**[Business Enhancement]** When adding Commercial, Auto, WC or Bill to Facility Payment Methods to the PA autofocus the cursor on the Name field since it is mandatory to speed up data entry

**[Business Enhancement]** For Direct Customers using Same & Similar, add the Same & Similar results to the Billing Doc PDF package

**[Reports]** Update the Adjustment History report to show each Adjustment as a new row on the csv so it is easier to analyze the data on the report

**[Reports]** Update the Provider name and User name columns on the VeriPro report so it matches the formatting on other reports to make analyzing data easier

**[Operational Enhancement]** Auto-capitalize the Patient middle initial on all forms for consistency

**[Operational Enhancement]** Update the Medicare Fitting & Adjustment Early Warning text and run a script to turn on the F&A Early Warning for all DJO OC accounts

**[Operational Enhancement]** Add a countdown timer to the webpage tab so Users know they have less than a minute until they are logged out

**[Operational Enhancement]** Update the search bar on the CF page in SM to include Account name searches

**[Operational Enhancement]** Upgrade the Main dashboard to bootstrap 4

**[Future Functionality]** Add a filter to the HCPCS page for Account Codes

**[Future Functionality]** For ANCHE, add a pie chart for Net Income by Clinic

**[Bug Fix]** If Self-Pay is imported onto the PA, the Self-Pay import button remains on the page

**[Bug Fix]** Address PAs erroring with document\_generation\_failed status upon submission for OC

**[Bug Fix]** On create new Patient on the new PA page, the Year is not visible after selection

**[Bug Fix]** Admin users are no longer able to Edit other Users Notes on PAs

**[Bug Fix]** PA Status report's tooltip is showing when Users aren't hovering and won't fade if navigating to another report selection

**[Bug Fix]** Do not show PAs on the VeriPro report if a Decline Reason was added, but VeriPro was not clicked

**[Chore]** Fix two most common failing tests in CircleCI

**[Chore]** Create a script to create a bulk number of patients in testing environments to better test large data sets

**[Chore]** Remove the old Reports UI to clean up old code
