Release Notes   July 21, 2021

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 07.21.21.

[Business Enhancement] Add the ability to multi-select statuses of Incomplete, Ready for Billing or Submitted on the PA Status report so the report can be further customized

[Business Enhancement] Add the ability to see a For Follow Up filter on the PA Status report if the Enable Follow-Up feature is enabled

[Business Enhancement] Update the Provider Batch Signature yellow banner wording to be more clear

[Operational Enhancement] Add the ability to use a dynamic metadata URL when user SSOs so we don't need to input static XML

[Bug Fix] On the Product page, the Remove HCPCS modal moves to the top of the screen

[Bug Fix] At low resolutions, the Product index page list card alignment is broken

[Bug Fix] Select2 dropdowns don't close if they get scrolled out of view

[Bug Fix] On PA, BS & ICD-10 tabs, after setting Specific Date range, clicking into PA and using back button the Date filter is blank

[Bug Fix] The Start Rental on Date of Surgery checkbox is causing Currently Rented rental products to show in the Due Soon or Past Due filter on the Rental Product index page

[Bug Fix] At low resolutions, the Rental Product index page Notes need a bottom margin

[Bug Fix] At low resolutions, the Clinic index page cards aren't always the same width on the left side of card

[Bug Fix] Inventory Location index page cards aren't fitting longer location addresses

[Bug Fix] Fix the Add Attachment Upload buttons styling on the expanded PA card view

[Bug Fix] Commas in the column total values are not in the correct place on Provider Usage show page

[Bug Fix] Fix Honeybadger undefined method name error

[Bug Fix] At low resolutions, the Custom Forms new page Name and Accounts overflow the container

[Bug Fix] Address the Provider column formatting on the main Dashboard

[Bug Fix] Missing Provider Signature well has multiple small alignment issues

[Chore] Fix adjustment history flaky test

[Chore] Dependabot upgrade
