

Release Notes

November 3, 2025

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The list below contains all the items that will go to Production on 11/03/25.

[Enhancement] Do not add a second track when an external PDF reader loads after user clicks "Print ABN"

[Dark Mode] Expose Dark/Light/Default mode options in Demo & Production for Admins and SA

[VeriPro] Remove all VeriPro experience options other than the VP2 dashboard

[VeriPro] On the VeriPro Edit Benefits dashboard, do not treat a 0 as null

[Bug Fix] Update the Medicare Pre-Auth Early Warning to remove L1833 HCPCs from triggering the warning

[Bug Fix] When deleting stock records from the Product page, I must refresh to see them updated.

[Bug Fix] PA attribute tooltips do not display attribute value

[Bug Fix] Creating a provider with two words for the last name is creating a provider with a lowercase last name

[Bug Fix] Body Side Discrepancy EW is only checking first diagnosis code

[Chore] Rake Task to update 2-page ABNs to 1-page ABNs

[Chore] Increase Rack Query Parameter Limit for Mass Entry Uploads

[Chore] 1148 – InventoryLocations#show models/stock_records

[Chore] Flaky tests

[Chore] Prevent button mashing on patient search

[Chore] Upgrade AmazonLinux 2 and NodesJS

[Chore] Create Rake Task to export ABN PDFs from a specific account during a specific date range
