Release Notes   March 9, 2022

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 3.9.2022.

[Business Enhancement] For Same or Similar, populate the Payment Method state field with the Patient's demographic state if the Payment Method state is blank to make it easier to check Same or Similar

[Business Enhancement] For DJO's OfficeCare, add a Remove button on the Drop Ship address section so it's easier to change the address

[Business Enhancement] Add a link under the Clinical tab to the ICD-10 tab so Users can be quickly directed to the ICD-10 tab

[Business Enhancement] Add Date and Timestamps to the Restock index pages for Warehouse and Satellite Inventory Locations so it's easier to see when a Satellite Restock was placed

[Reports] Add Restock Notes to the Purchase Order History Report

[Future Functionality] For ANCHE VP, add filters to the tab so Users can set desired parameters

[Future Functionality] Update SCIT to suppress the leading zeros for UPC's
