

Release Notes

May 18, 2022

This deployment may include new features, bug fixes, security enhancements, and data migration related issues. The below list contains all the items that will go to Production on 5.18.2022.

[Business Enhancement] Update the "Needed" column to "Ordered" on the Inventory Location Incomplete Restocks tab and Restock show page so it's more clear this value is the quantity ordered

[Business Enhancement] Alphabetized the Select Vendor Site dropdown menu on the new restock page so it is easier to find Vendors

[Business Enhancement] Update the OfficeCare Medicare Prior Auth EWS to remove the ABN language due to updated Medicare guidance

[Business Enhancement] Restock Check In page recognizes barcodes in the Scan Item # field

[Business Enhancement] Add an error message if the PAM Partner or Facility ID is missing

[Business Enhancement] Add the ability to create a PA note only visible to Users and not patient or billing

[Business Enhancement] Direct Accounts can Record Payment on Self Pay payment methods to record cash collections unrelated to VeriPro

[Operational Enhancement] Update the PA header with a back button to the Patient Agreement list page

[Operational Enhancement] On the PA list page PA+BS tabs, the Add Notes button now opens a modal to match the new PA notes modal

[Operational Enhancement] For OfficeCare Accounts, add account number on the Inventory Location list page

[Future Functionality] As a Clinic Admin, update on PA location defaulting

[Future Functionality] Add new function to store patient diagnoses

[Reports] On the Product Activity Report preview and download, add two new columns for Unit Price and Ext Price

[Bug] Search by vendor name in Stock record shows correct results

[Bug] Removed the extra comma on the Inventory Location card address

[Chore] Update note types
